

30L MUFFLE FURNACE - SLAB ELEMENT

Model: 930

FEATURES

- Scientific muffle furnaces are ideal for a wide range of applications where high temperatures are required
- Robustly constructed and fitted with high quality components for reliable operation
- Electronic P.I.D temperature control with digital indication of set and process value
- Solid state switching for improved reliability and rapid response
- Independent sensors for control and safety using type n duplex thermocouple
- Maximum continuous operating temperature 1150°C
- Easily replaceable side wall mounted slab elements
- Automatic cut out switch on door opening deactivates element
- Door mounted temperature sampling port for easy validation, thus retaining heat inside the chamber
- Robust construction with slide out control panel for ease of service
- High thermal efficiency ceramic insulation coupled to double skin construction ensures cool to touch exterior panels

- Out and up door with vertically counterbalanced action protects operator from potential burns

NOTE

- Prior to ordering please advise on application
- Ashing option available
